Print Provider Network

Program Details:

The PPN is a free listing on the DreamScape website to aid visitors in finding reliable printers to complete their work on DreamScape media.

The PPN is a reciprocal agreement between DreamScape and a print provider that is using DreamScape vinyl print media to print wall murals, wallcovering and other related products for residential and commercial applications.

DreamScape will list the print provider on its website as a PPN with a direct link to the print provider's site. The website will display a screen shot and short description of services with a link to the print provider's web page. The content and composition of the screen capture, as well as the URL chosen are at the sole discretion of DreamScape. The print provider may be asked to furnish a short description of services.

Qualifications:

1. Print provider must have experience with DreamScape products and be willing to demonstrate expertise by submitting printed samples for evaluation.
2. Print provider must have mention of wallcoverings, murals or wall graphics in the content of its website. The purpose of the PPN is to quickly connect potential customers to a qualified resource. The website or web page must demonstrate knowledge and experience of relevant topics. Use of our DreamScape PPN logo, and / or mention of our products is encouraged but not required.

Steps:

First, complete the business profile on the following pages and return to: sales@dreamscapewalls.com

Next, send a printed set of your control prints printed on any **DreamScape** surface to the address below. This is a standard image test from your RIP or any image (no control plots) you use for color control. Send this to:

PPN
DreamScape division of
Roysons Corporation
40 Vanderhoof Ave.
Rockaway, NJ 07866

We will contact you after we receive your test print to finalize the set up.

Thank you,
Lisa Schultz
Operations Manager
DreamScape Sales
